## FIREPROOF BUILDINGS.

The New Structure on Nassau, Fulton and Ann Streets.

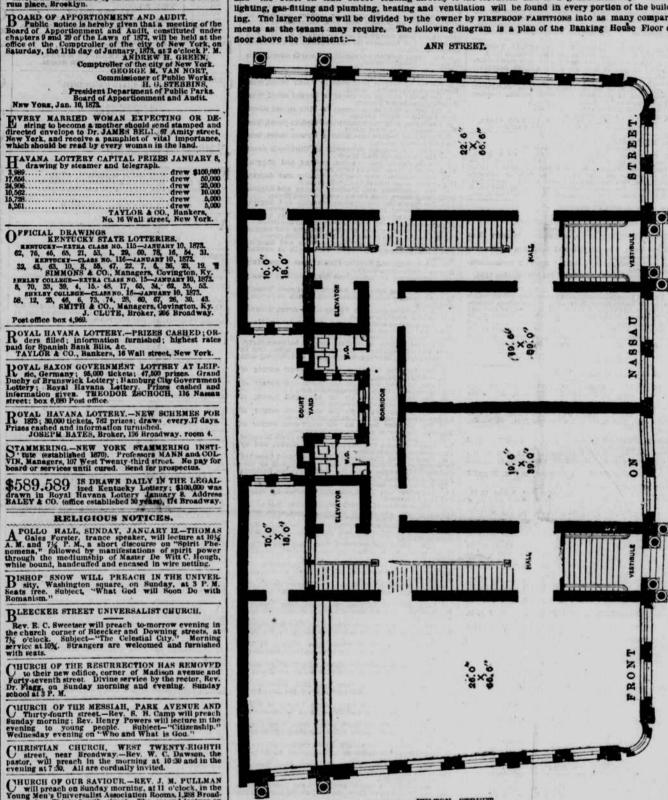

THE MOST PERFECT AND SECURE EDIFICE IN THE COUNTRY.

SPLENDID CHANCE FOR PEOPLE DESIRING OFFICE ROOMS

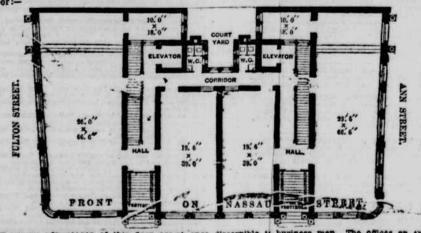

Banks, Insurance Companies, Merchants, Lawyers and Manufacturers Attention.

APPLY TO HOMER MORGAN NO. 2 PINE STREET.

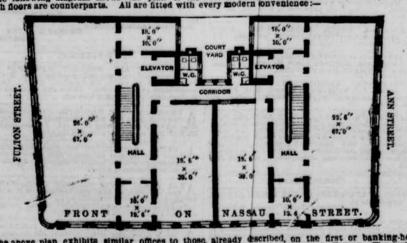

The Building, entirely fireproof, bounded by Nassau, Fulton and Ann streets, is now in course of construction, and will be finished and ready for occupation by May 1, 1873. This magnificent structure, six stories high, the handsomest and most complete building in the business portion of our city, has been erected under the personal supervision of the well-known architect, Mr. Arthur Gliman, who has, at enormous cost, made it the most elegant and commodious edifice of the kind in America. The value of the land and building is over one million dollars. The configrations that have laid waste the cities of Chicago and Boston have been accepted as a warning, and the Building is so constructed as to be strictly figurated. Although of lofty height at large of the huilding will be of structed as to be strictly fireproof. Although of lofty height all portions of the building will be of easy access, as two of Tufts' No. 1 elevators will be run constantly during business hours, starting from the sidewalk level. The greatest possible attention has been paid to ingress and egress. The building may be entered from four different quarters—two on Nassau street, one on Fulton street and the other on Ann street—leading directly to the elevators and to a grand stairway. Perfect lighting, gas-fitting and plumbing, heating and ventilation will be found in every portion of the build-ing. The larger rooms will be divided by the owner by FIRSPROOF PARTITIONS into as many compart-ments as the tenant may require. The following diagram is a plan of the Banking House Floor or floor above the basement :-

FULTON STREET. The above floor is, without exception, the finest location for Banking and Insurance Offices in the city. The two magnificent Offices to the right and left have—one a front on Fulton street of 68% feet and Nassau street of 28 feet, and the other 68% feet front on An street and 22% feet on Nassau street, and are unequalled in their class. Adjoining them, is the rear, are two ante-rooms 20 feet back, all perfect in the way of light and ventilation. The following diagram represents the basement floor:—

The many advantages of this floor are at once discernible to business men. The offices on this floor are highly desirable for all classes, but more especially adapted to Insurance, mency brokers, merchants, lawyers, large law firms and where security from fire to legal documents as a desideratum. The two large offices fronting on Fulton and Nassau and Annand Nassau are respectively 55 feet by 24% feet and 55 feet by 22% feet, and the two interior offices are similar to those on the floor above. The following diagram shows the plan of the second floor, of which the third, fourth, fifth and sixth floors are counterparts. All are fitted with every modern convenience:—

SPORTING-DOGS, BIRDS, &C. A -FOR SALE, ALL KINDS OF FANCY DOGS,
Birds, &c. Medicines for all diseases: prepared
